Countries And  
Regions

Large Chain  
Customers

**200+** **20+**

Innovative  
Products

Industry Certification  
Awards

Committed to reducing the impact of disposable plastic products on the environment

**Jiurong Packaging promotes the green lifestyle development of "paper instead of plastic" and advocates that eco food packaging originate from nature, return to nature.**

## Corporate Culture

### Brand Values

#### Honesty

The industry is not prosperous without honesty. Honesty is the life of the brand. Only by keeping honesty can we win the market and users.

#### Responsibility

Regard the environmental protection of energy conservation and emission reduction as our own responsibility, devote ourselves to the recycling of resources, shoulder the heavy burden and move forward.

#### Innovation

Insist on taking innovation as the growth momentum, respond to the trend, take the initiative to change, and promote high-quality development.

#### Win-win

Build a win-win cooperation platform for partners, focus on common development and win-win future.

### Brand Vision

Become a global leader in environmentally friendly food packaging industry. Jiurong Packaging is based on the original ecological packaging industry, guided by science and technology, adheres to people-oriented, harmonious integration, advocates and leads a green low-carbon lifestyle, and goes all out to protect the sustainable development ecology.

### Brand Concept

Ingenuity, perseverance, sincerity and honesty.

### Brand Mission

Deeply cultivate environmental protection packaging and lead low-carbon life. Manufacture food packaging with ingenuity; Defend food safety with perseverance. Obtain customer satisfaction with sincerity; Create employee happiness with honesty.

## One-stop solutions to meet individual needs

Provide customers with competitive, safe and environmentally friendly products.

All products can be customized according to your requirements.

We have our own factory, which can control quality and production environment, and keep track of production progress.

Provide exclusive comprehensive transportation services and solutions.

**Focus On Research, Development and Manufacturing of Safe & Eco-friendly Food Packaging**

# Our Factory

Jiurong Packaging has 60,000 square meters of international standardized production base, the world's advanced environmentally friendly food packaging production equipment and class 1000 dust-free purification workshop, with sophisticated equipment and technology to promote production capacity, the concept of energy saving and emission reduction and circular economy, into every link of packaging products.

## Raw Materials Produced

### PLA

Polylactic acid is a polymer obtained by polymerization of lactic acid as the main raw material.

### Paper

Can be widely used in various paper products packaging.

### Bamboo

Bamboo has a short growth cycle. After processing, it can maintain the toughness and durability of bamboo. Products made of bamboo are biodegradable.

### Sugarcane pulp

Sugarcane pulp is mainly made of bagasse, which is degradable and compostable. It is a suitable material for making lunch boxes.

## Paper Box Machine

## Printing Machine

Over the years, Jiurong Packaging has been focusing on the research and development of professional technology, developing in the rapidly changing field of environmentally friendly food packaging and rising in the market.

## Certification

### International Quality, World-renowned

Jiurong looks forward to the development trend of the food packaging industry, continuously improves product quality and service capabilities, has passed ISO9001 Quality Management Systems certification, BSCI Business Social Compliance Initiative certification, BRC A+ the Food Safety Management Systems standard certification and FSC Forest Stewardship Council certification, FSSC22000 Food Safety System certification. As well as HACCP Hazard Analysis and Critical Control Points certification, to achieve the integration with international industry standards, products are exported to all parts of the world, and become a long-term strategic partner of the world's catering giants.

Break the shackles of traditional packaging and pursue a sustainable future. Jiurong Packaging has been on the road and has never stopped moving forward.

### Company Certification

#### FSSC 22000

FSSC 22000 is a food safety certification scheme that creates a framework for food safety management, total supply chain management, and control of food safety hazards.

#### GMP

Good Manufacturing Practices or GMP is a system that consists of processes, procedures and documentation that ensures manufacturing products, such as food, cosmetics, and pharmaceutical goods, are consistently produced and controlled according to set quality standards.

#### BRGS A+

The standard is designed as a "total quality management" program, and includes both Packaging materials requirements and quality requirements.

#### HACCP

HACCP is a management system in which food safety is addressed through the analysis and control of biological, chemical, and physical hazards from raw material production, procurement and handling, to manufacturing, distribution and consumption of the finished product.

#### BSCI

The amfori Business Social Compliance Initiative (BSCI) is an industry-driven movement that aims to monitor and assess workplace standards across the global supply chain.

#### FSC

An obvious choice for manufacturers of FSC™ certified card and paper ensuring that the products come from responsibly managed forests. Search for our FSC™ certified products.

#### Quality Management System Certification

Our integrated quality and environmental management systems are ISO9001:2015 and ISO14001:2015 certified, which allow us to identify the key aspects guaranteeing service of the highest quality and the areas that impact on the environment in order to create continuous improvement objectives and an action plan to achieve them.

#### EUTR

The EUTR (European Union Timber Regulation) has been in force since 2013. It is an EU-wide regulation (which is replicated in the UK since Brexit, UKTR) that also has international implications.

### Product Certification

#### FDA

The FDA means that a company must demonstrate that its drug or biological product is safe and effective for the intended use, and that it can manufacture the product to federal quality standards.

#### OK compost INDUSTRIAL OK compost HOME Seedling

TÜV AUSTRIA (formerly Vinçotte) is a certification body authorized by European Bioplastics and may therefore award the Seedling logo to products that are in compliance with EN 13432. By awarding both the OK compost INDUSTRIAL and the Seedling logo, TÜV AUSTRIA's certificate holders are able to have their compostable products recognized throughout the entire European market.

#### LFGB

The LFGB standard ensures that products coming into contact with food are compliant. This standard is mainly required for Germany. LFGB is based on European directives 76/769/EEC and EC 1935/2004.

Our products are suitable for display racks. Labels with multi-language descriptions, technical characteristics and certificates. Packages with high quality and high visibility.

# Development History

We're always on the way.  
 Since 2006, Jiurong Packaging has been developing environmentally friendly and efficient food packaging solutions.

# Paper Bag

Designed Around You

## Product Sizes

Our paper bags could be customized with environmentally, degradable materials, and all these are with strict inspections.

1. Contact our sales to customize you own sizes, designs.
2. Strong quality to take-away.

## Our Advantages

### Twisted Paper Bag

Adopting the design of circular twisted paper rope, which is one of the commonly used paper bag styles in the market.

### Flat Handle Paper Bag

The flat rope design improves the comfort of handling.

### Paper Bag Without Handle

The paper bags can be customized to regular, thickened, oil-proof ones, etc.

## Paper Bag Without Handle

The bottom is thickened and glued
